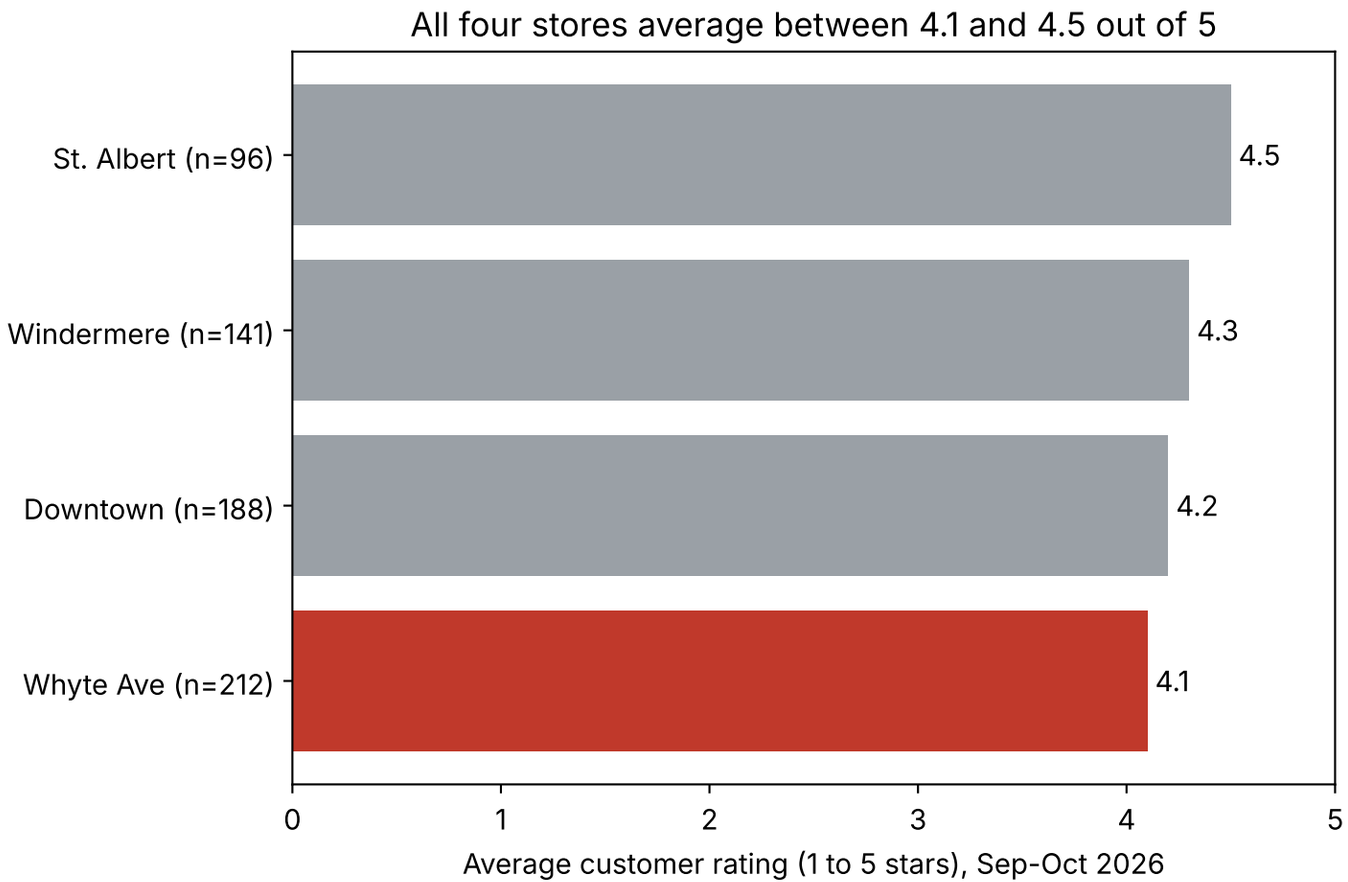
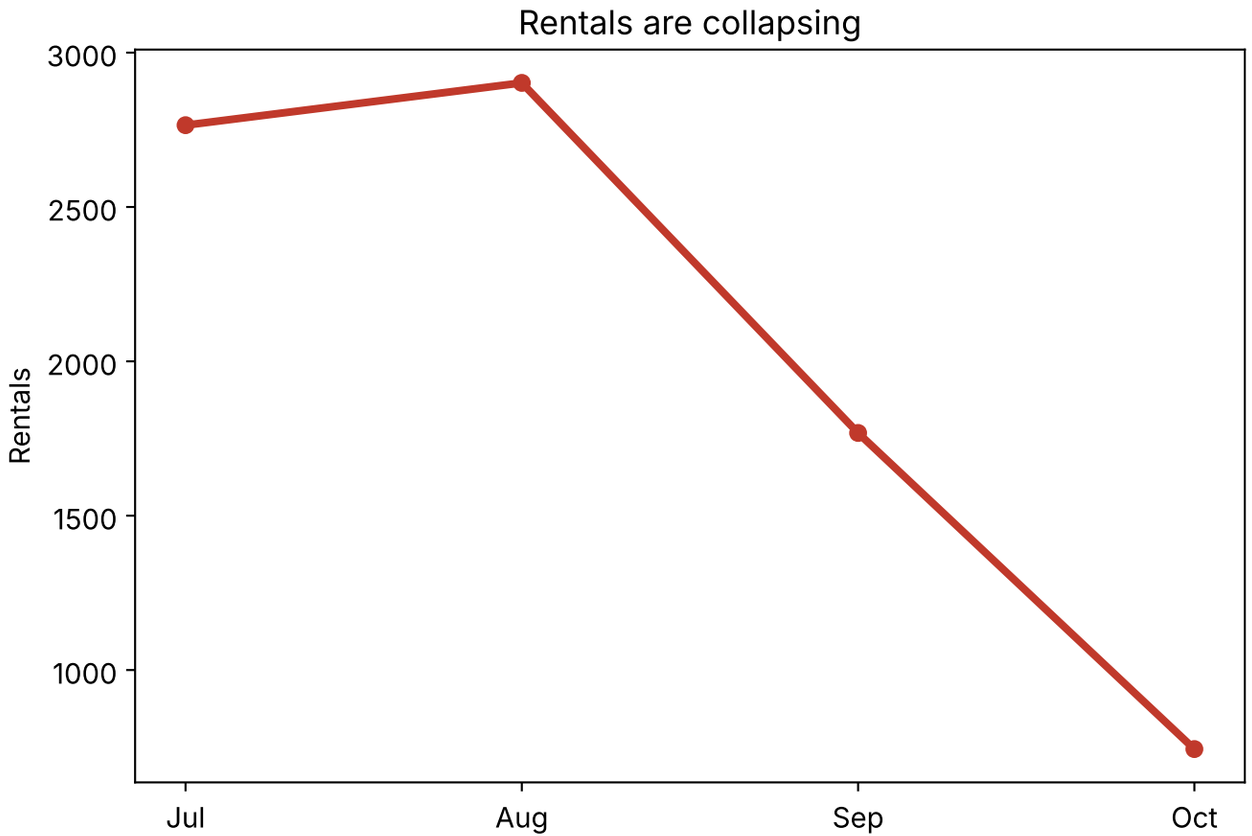
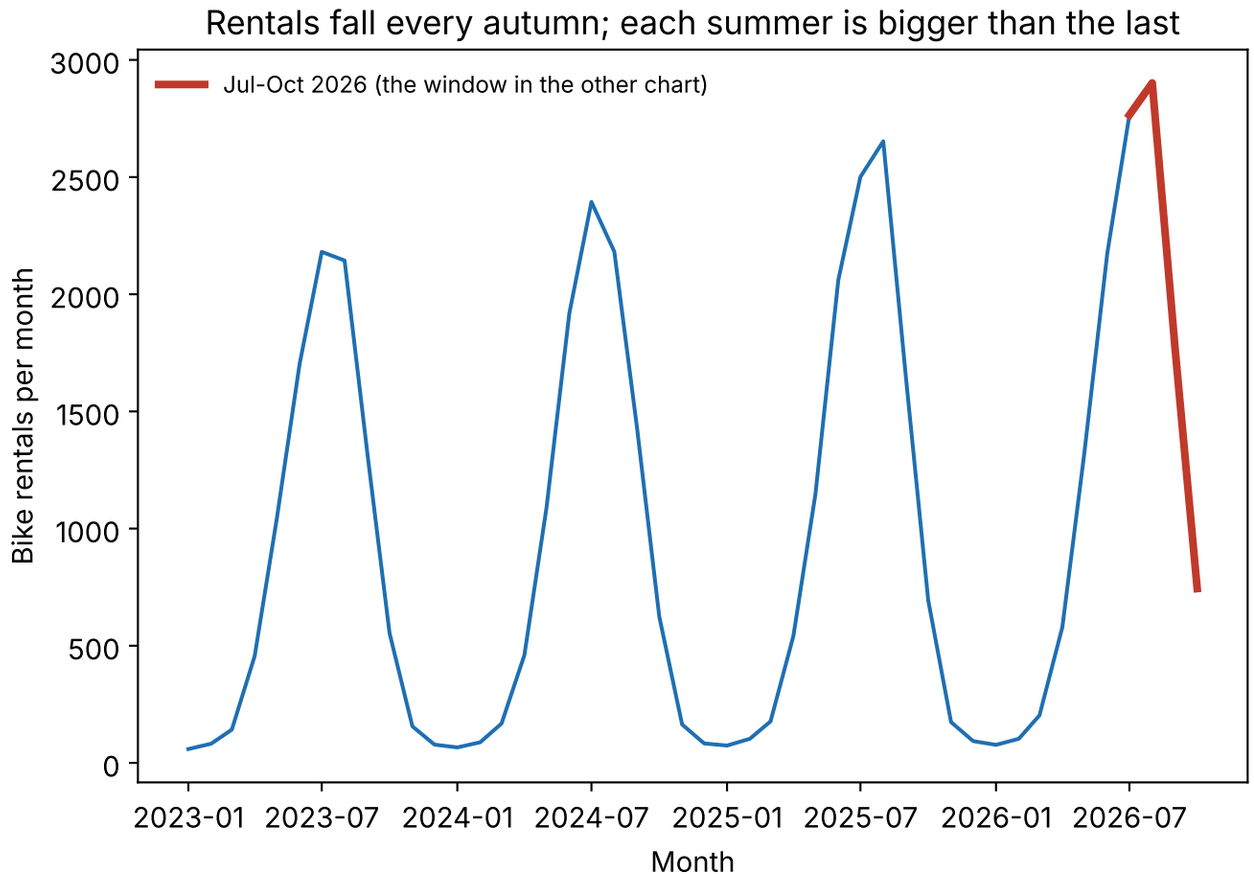
Chart 1: misleading (left) and a fix (right). Bars start at zero; the title states the real spread; sample sizes shown.



Fictional data for teaching.

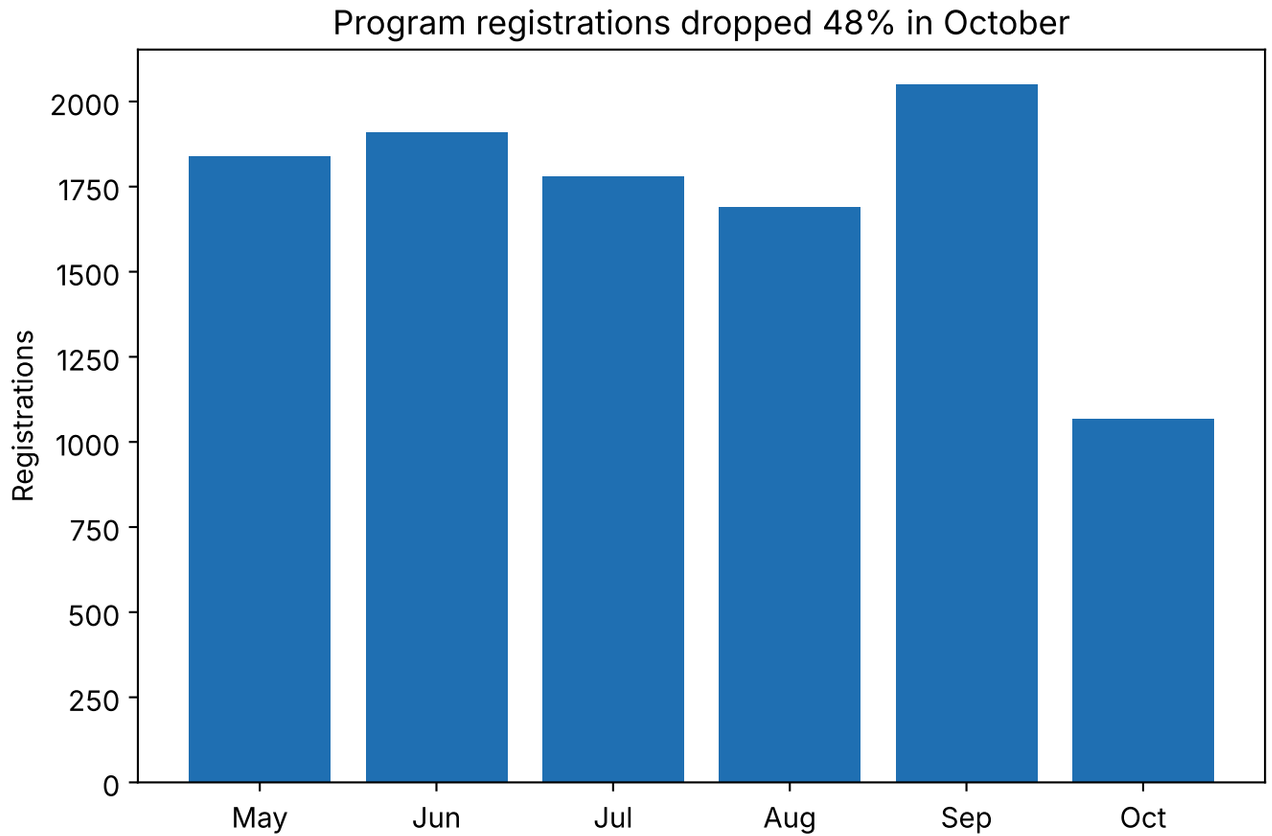
Chart 2: misleading (left) and a fix (right). The full four years show a seasonal pattern and growth.

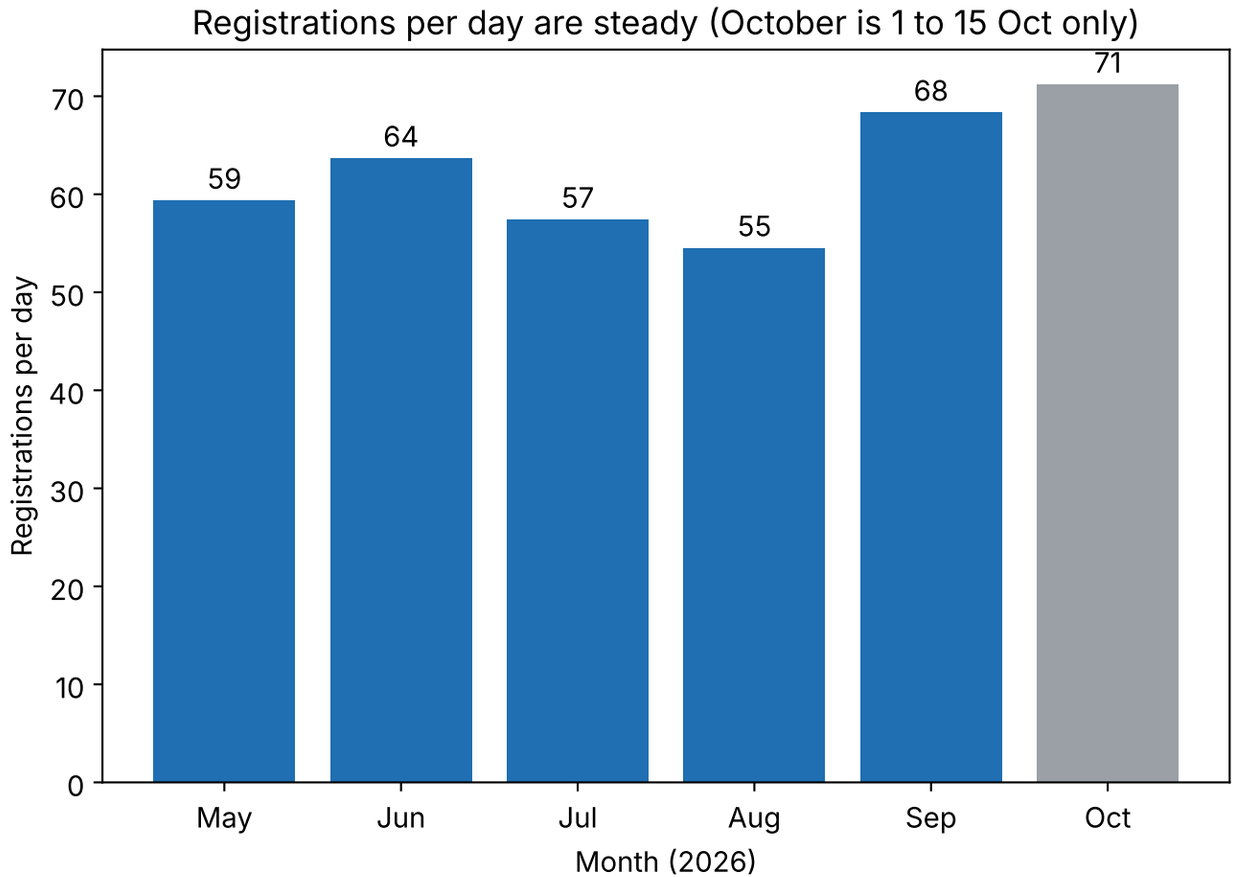




Fictional data for teaching.

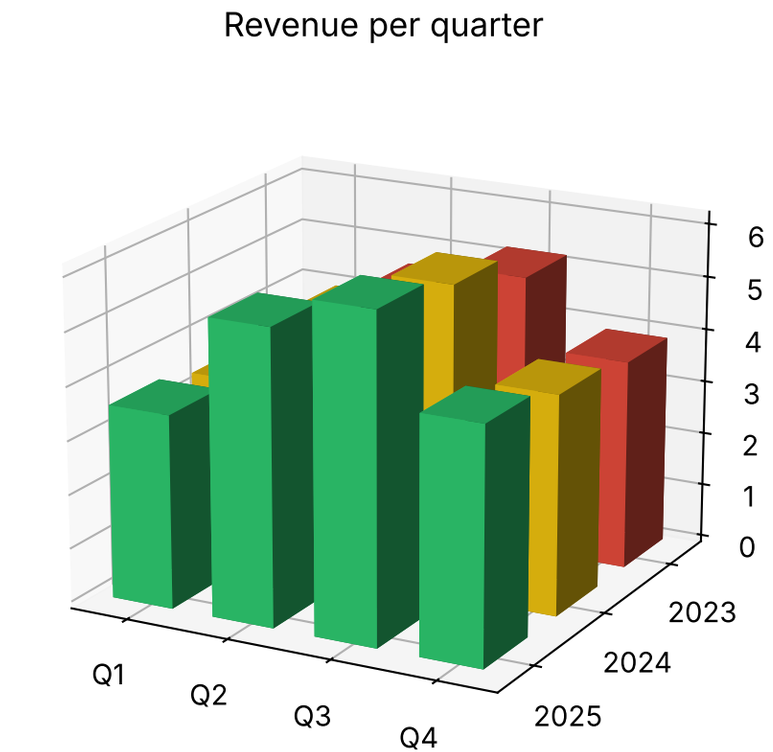
Chart 3: misleading (left) and a fix (right). Per-day rate, with the incomplete month marked.

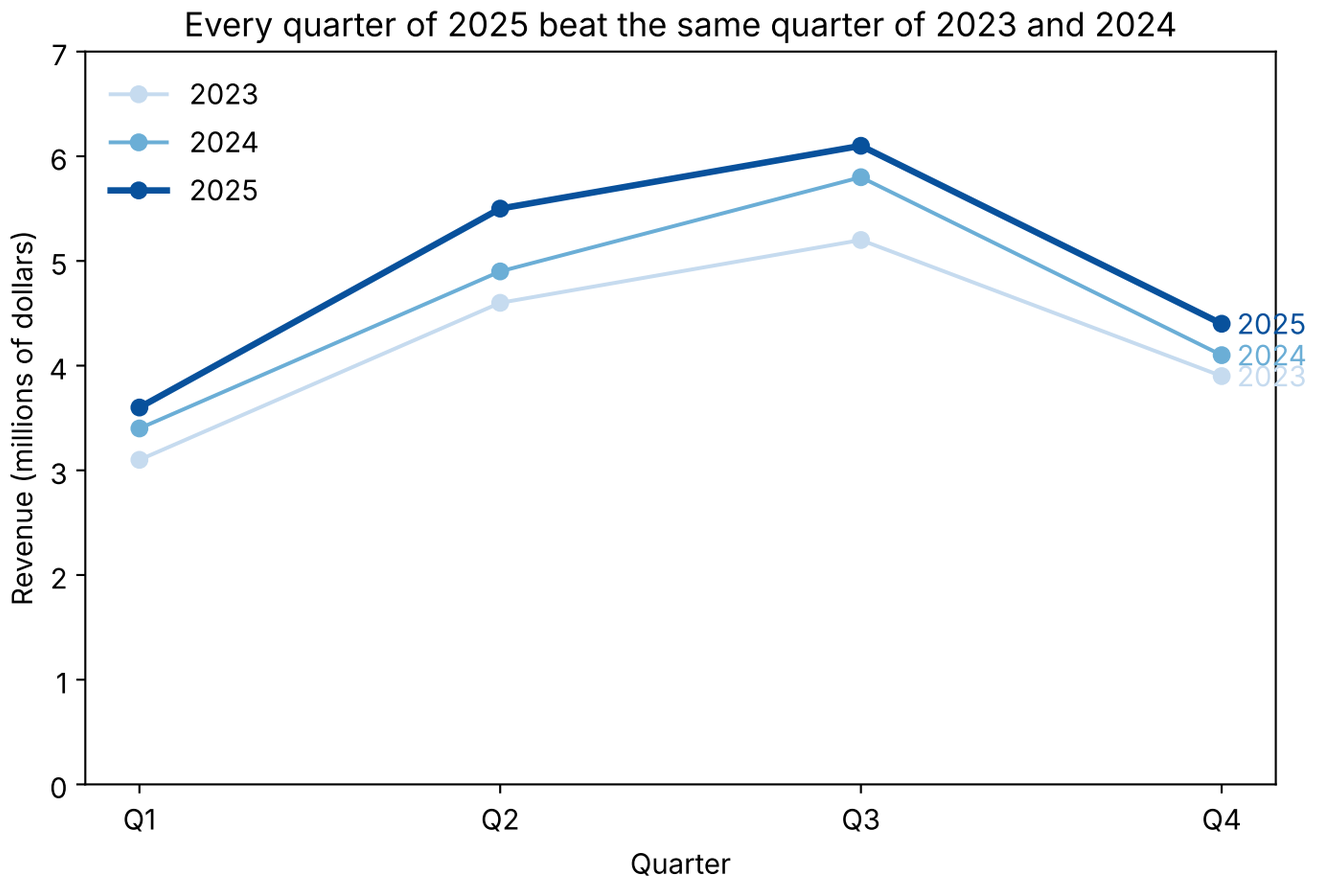




Fictional data for teaching.

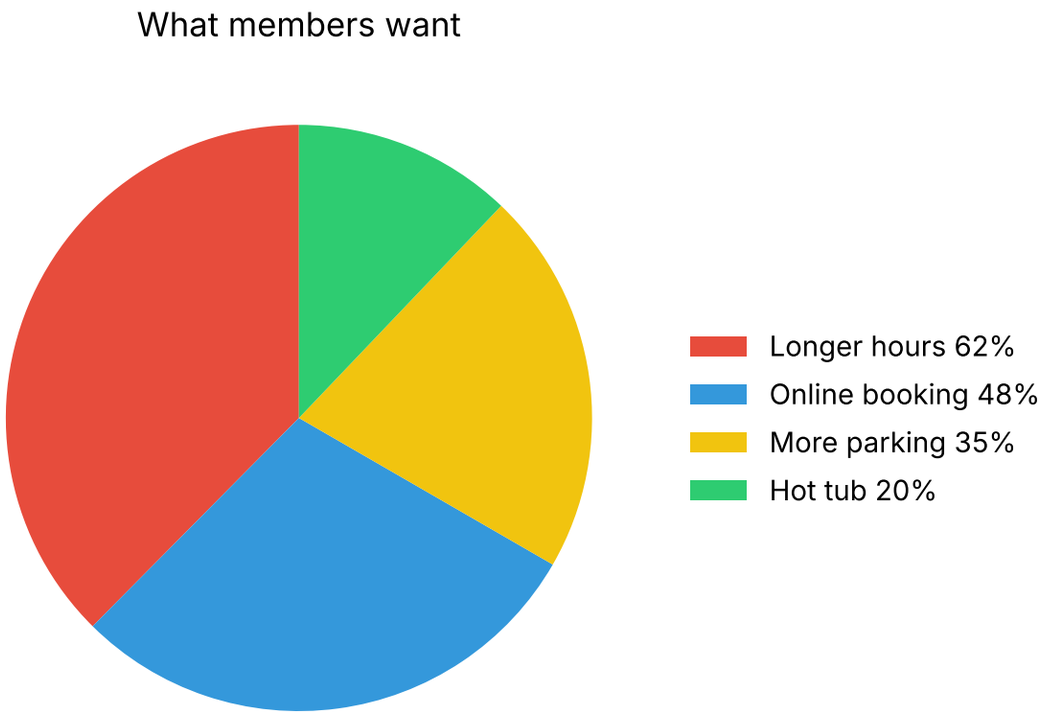
Chart 4: misleading (left) and a fix (right). A 2D line per year, one sequential colour, units on the axis.

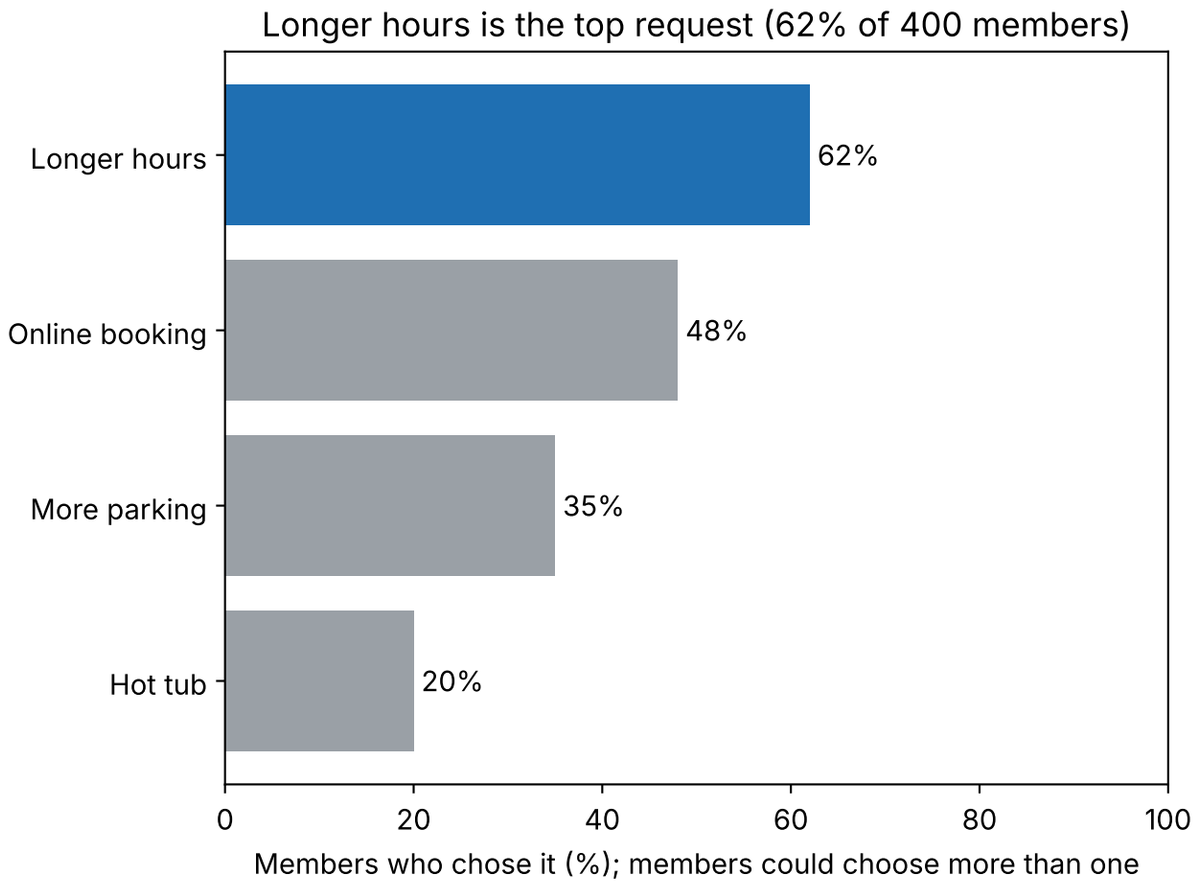




Fictional data for teaching.

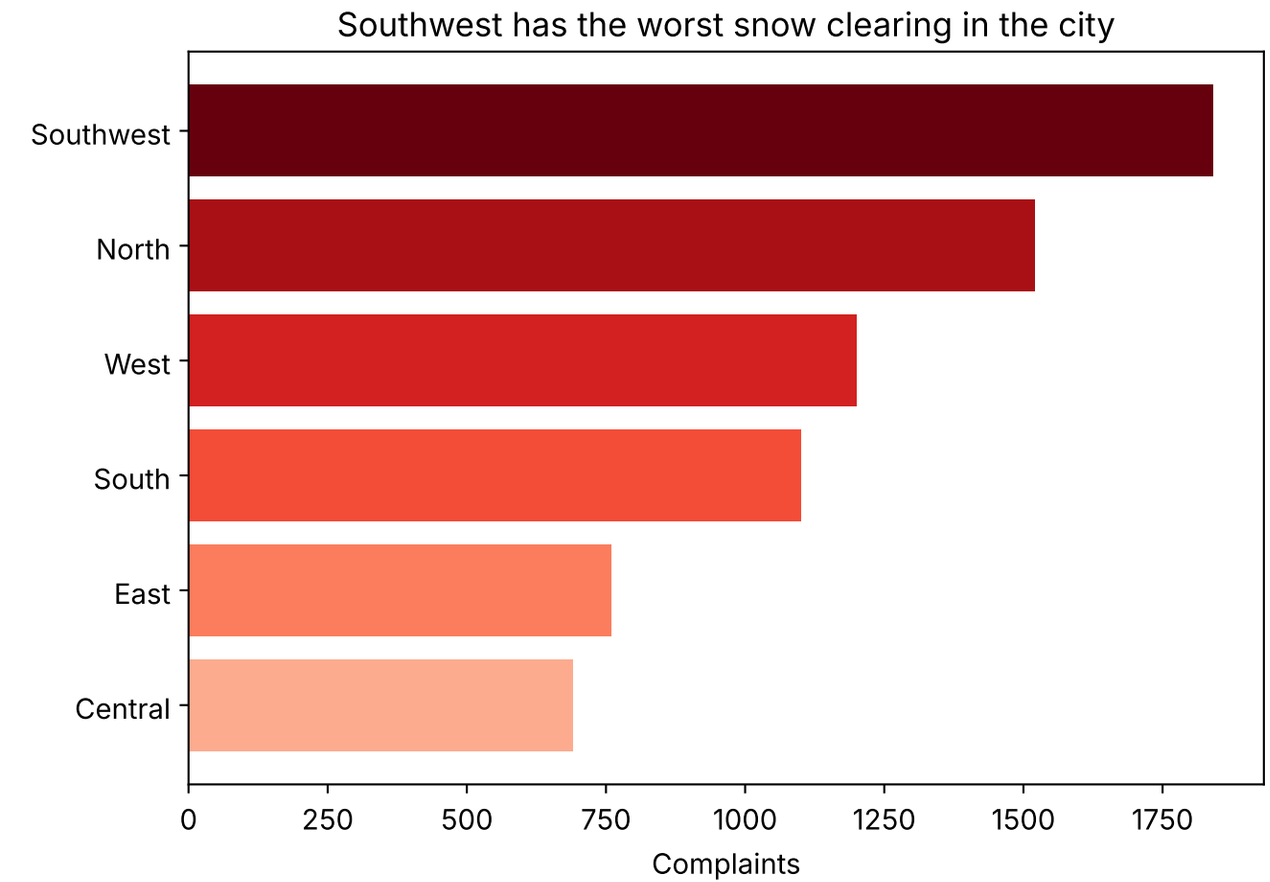
Chart 5: misleading (left) and a fix (right). A bar per option; the multi-select wording is on the axis.

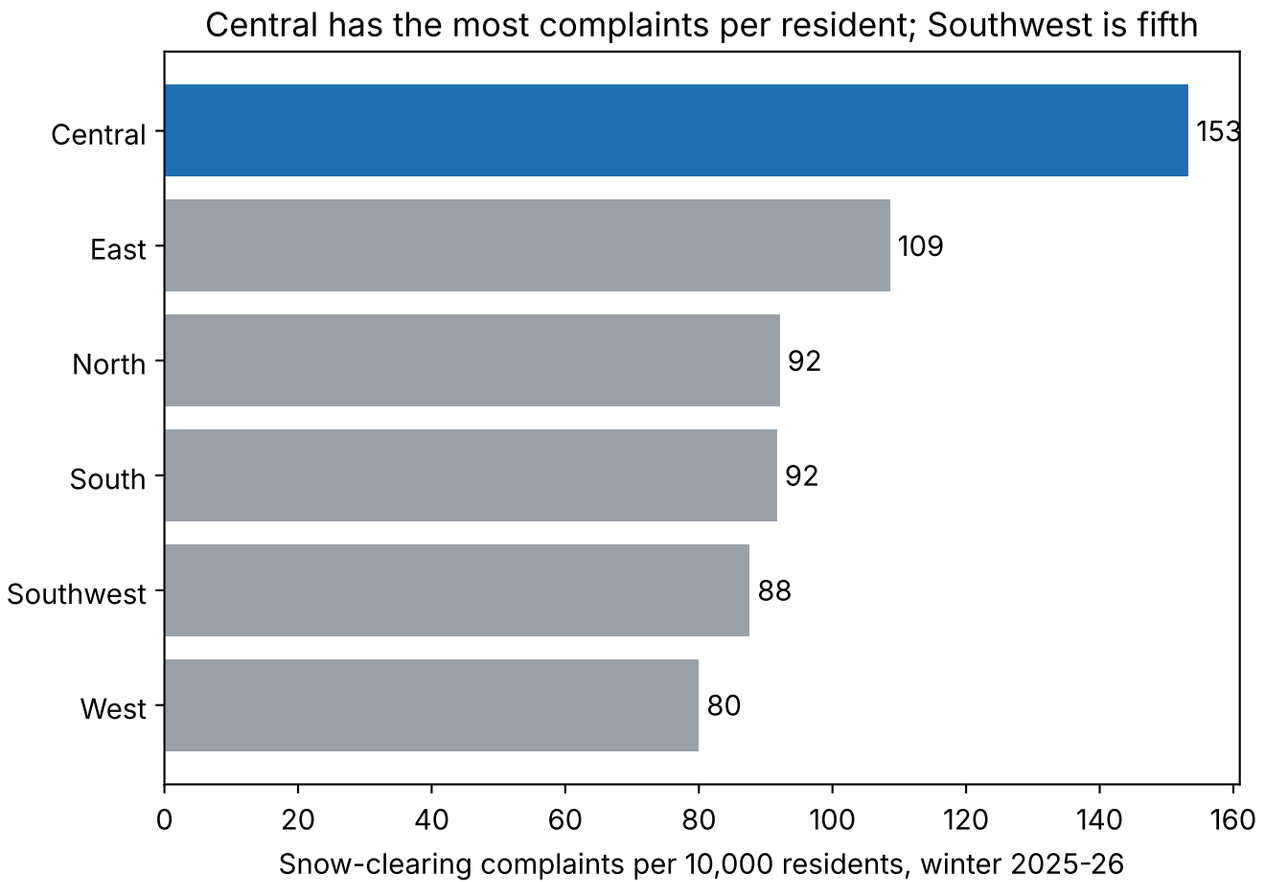




Fictional data for teaching.

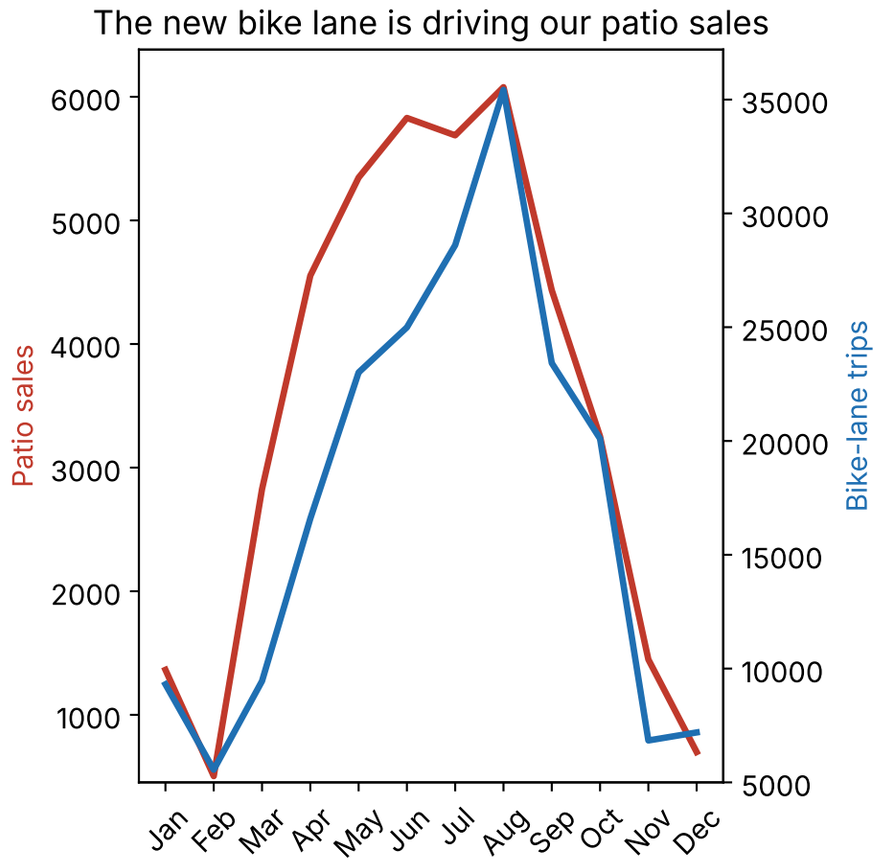
Chart 6: misleading (left) and a fix (right). Complaints per 10,000 residents instead of raw counts.

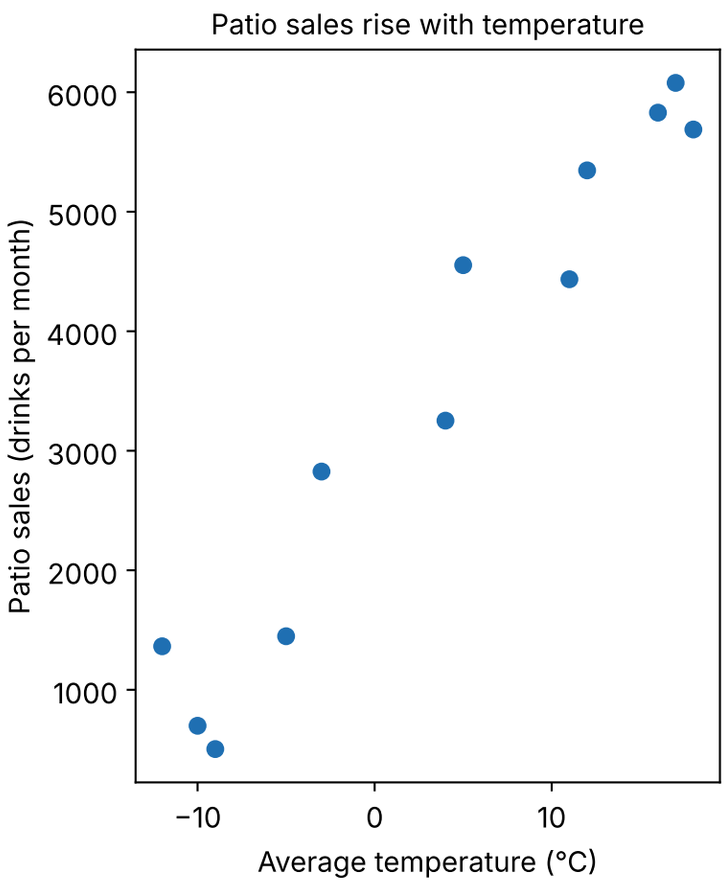


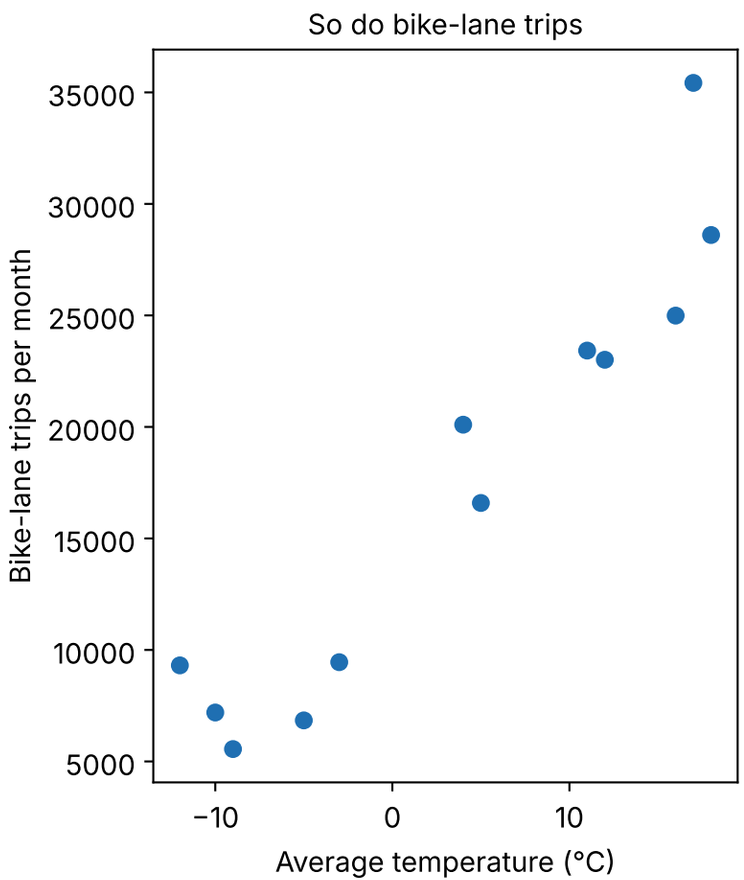


Fictional data for teaching.

Chart 7: misleading (left) and a fix (right). Each measure on its own axis against the shared cause (weather).







Fictional data for teaching.

Chart 8: misleading (left) and a fix (right). Bars (length) instead of circles whose radius doubled.
